## MAKAWELI GIRLS GIVE A DANCE

(Special to the Garden Island)

MAKAWELI, Oct. 30.—Morrison Hall was the scene of much delight last Saturday evening, when the young ladies of this place gave a dance. The decorations were extremely tastefully arranged and the young ladies certainly deserve great praise for the way in which they managed the affair, which was the most enjoyable of the season.

The Lihue Store is publishing the second winning composition in the recent catch-phrase contest which the store pulled off recently, in to-day's issue. It will be found on page eight in the regular space occupied by this enterprising firm.

A Yost typewriter is for sale at this office. Price \$13.00. Call and see demonstration.

## MR. AND MRS. PAUL ISENBERG GIVEN DINNER

Rev. and Mrs. Hans Isenberg Give Dinner To Mr. and Mrs. Paul Isenberg on 20th. Anniversary.

## MRS. PALMER GIVES TEA

Planting By The Road-Side—Trees Are Being Destroyed—Koloa Soccer Team Issues Challenge

The Rev. and Mrs. Hans Isenberg gave an elaborate dinner Saturday evening, Mr. and Mrs. Paul Isenberg, being guests of honor, the occasion being in celebration of their twentieth wedding anniversary. During the dinner hour, and after, the Lihue band rendered appropriate airs much to the delight of the guests.

Places were laid for twenty. Those who enjoyed the hospitality of Rev. and Mrs. Isenberg, and the pleasure of extending congratulations to Mr. and Mrs. Paul Isenberg, were Mrs. McGauley, Mr. and Mrs. R. W. T. Purvis, Mr. and Mrs. A. H. Rice, Mr. and Mrs. Chas. Rice, Mr. and Mrs. Philip Rice, Mr. and Mrs. Rohrig, and Messrs. Walter and Alexander McBrady.

## MRS. PALMER GIVES A TEA

Mrs. Palmer entertained at tea, last Tuesday afternoon to a number of the Lihue ladies. A dainty table was spread beneath a great, spreading hau tree, which formed an exceedingly pleasant retreat. Those present were Mrs. Hogg, Mrs. Gandall, Mrs. Broadbent, Mrs. Moragne, and Mrs. Hopper. Delicious refreshments added the finishing touches to one of the pleasantest teas given this season.

## PLANTING BY THE ROAD-SIDE

On a recent trip we were very much pleased to see that an attempt is being made at planting trees along the sides of the public road. Equally displeased, however, were we to see that some careless or unthoughtful person or persons seem to be destroying this noble work by allowing cattle to trample the small trees down. Let us all unite in protecting these trees and to encourage the planting of more of them. Plant the trees and properly care for them and within the next decade we will be amply repaid for one toil by their cool and refreshing shade. We sincerely trust that the work of destruction will discontinue and instead thereof, a campaign of carefulness may be establishment.

## KOLOA TEAM CHALLENGES

The Koloa soccer team does hereby challenge any Kauai soccer team to a contest to be played on the Koloa grounds, and a return game on the opponents' field.

CAESAR JARDIN,  
Secretary, Koloa soccer team.

## PLAYS WITH FIRE AND IS BURNED TO DEATH

Big Luau at McBryde House on Lawai Beach Sunday—Walter McBryde Genial Host.

## YELLOW JACK ON OAHU

One Case Develops in Kalihi Camp—Armed Men Form Guard—Victim Is Hawaiian Guard.

(Special to the Garden Island)  
HANAMAULU, Oct. 26.—A three year old son of John Fernandes, a laborer in the plantation here, and residing in the camp mauka of the government road, was so badly burned on Tuesday morning that death followed on Wednesday at the hospital where the little fellow had been taken after being burned.

## BIG LUAU ON LAWAI BEACH

(Special to the Garden Island)  
LAWAI, Oct. 30.—W. D. McBryde was host to a big luau at his Lawai beach house last Sunday, which was acknowledged by three score or more of his guests to have far out-classed anything of the kind this season. About everybody from Lihue came over, while Captain Leavitt of Port Allen and Mr. and Mrs. Ben Baldwin represented Makaweli.

## YELLOW FEVER IN HONOLULU

(Special to the Garden Island)  
HONOLULU, Oct. 20.—A Hawaiian Guard who was on duty at the time the Maru was here with yellow fever aboard, has succumbed to the disease. He is a resident of the Kalihi Camp, from which one hundred and twenty persons have been removed to Quarantine Island. An armed guard surrounds the injected camp. Doctors say that seven days must elapse before further knowledge can be obtained as to the extent of inoculation.

Paul Rutsch, brother to Fitz Rutsch, recently arrived from Germany and has accepted a position as assistant instructor in the Lihue German School.

Defendant's appeal from Waimea District Court.  
W. J. Sheldon for Plaintiff.  
A. G. Kaulikou for Defendant.  
16. Piilani Paikahawai vs. John Koani and Paulo Kaai. Trespass.  
Defendants' appeal from Kawaihau District Court.  
J. M. Kaneakua for Plaintiff.  
Chas. S. Dole for Defendants.  
17. J. I. Silva vs. Manuel Gabriel Sr. and McBryde Sugar Co., Garishee.  
Assumpsit for \$71.50.  
Defendant's appeal from Koloa District Court.  
Wm. J. Sheldon for Defendant.  
18. John Nobriga and Olympia Nobriga, his wife, vs. Enoka Lovell. Damages.  
Defendant's appeal from Lihue District Court.  
Sam'l F. Chillingworth for Plaintiff.  
S. K. Kaco for Defendant.

## "SMALL FARMER" IS AFTER EDITOR'S SCALP

Would Champion The "Small Farmer" Scheme and Says Things Without Any Meaning.

## FAITH IN SMALL FARMING

Writer Threatens to Produce Evidence of Successful Diversified Farming But Fails to Make Good.

Editor GARDEN ISLAND  
Dear Sir:  
Your letter in the last issue of your paper relative to "Diversified Farming," is regarded by the undersigned, entirely misleading and by no means justified by past experience. I will show where I get my ground for my charges in the following:  
1st. That Prof. Starret has forgotten more than the editor ever knew.  
2nd. That he is evidently the mouth-piece for the planters and would curry favor by taking the stand he has.  
3rd. That evidence is abundant wherein success has been made in the growing of vegetables and other things than cane.  
4th. That the GARDEN ISLAND is the only paper that has ever dared attack the progressive spirit of our country, and last but not least the editor is by no means familiar with the subject under discussion which renders anything he might say of little consequence.

### SMALL FARMER.

The above communication has been received by the editor, who hereby publishes it verbatim. We will take up the above charges in the manner in which they are put.  
1st. The writer claims that Prof. Starret has forgotten more than we have ever known. This may or may not be true, but the fact remains however, that it seems he really has forgotten that anybody else has knowledge of diversified farming. We may not know a deuce of a lot, but as long as our correspondent lives, we can feel sure that we are not in a class entirely by ourselves.  
2nd. In this paragraph, the writer charges us with being the mouth-piece of the plantations, and that we are playing to favor the planters. Nothing could be further from the truth. In the first place, the planters are in no need of assistance in this direction, and if they were, this paper would be in no position to render them help to even an appreciative degree. As to currying favor, etc., we can very justly say that such an attempt on our part is entirely unnecessary as this paper is so well and popularly known, that further efforts in that direction are useless. Did we not appreciate the assistance from a source upon which the entire Hawaiian Islands depend for their very existence, we would not consider ourselves loyal to the source from which we derive our living.  
Because our opinions are parallel with those of the sugar planters, does not necessarily indicate any compact by any means.

3rd. Here he states that abundant evidence can be had, showing diversified farming pays. We are from Missouri, and to bring our writer up a trifle we can furnish him with names and addresses of men who have spent money and time in experimenting with various fruits and vegetables, without re-

sults. Some have raised quantities of potatoes for instance, but by the time transportation and commissions were paid not enough remained to pay growing expenses. Experiments have been made in Kapaa and are being made in Kalaheo. Diversified advocates will point to the latter and exclaim "see what can be done!" But to all such shallow brained numbskulls, we would kindly suggest a perusal of the books belonging to stores where these "Homesteaders" do their trading and without the aid of which that speck of "diversified" agriculture would go out of existence. Some of these men are probably so deeply in debt that they will never be able to get even again which fact is certainly not a very great inducement to wade in and get your feet wet.  
4th. That this is the only paper that has ever dared attack the progressiveness etc., is another one of the writers most idiotic charges. We can't imagine where he could get such an idea, since the paper has become known throughout the Territory as one of the most progressive of all the island weeklies. This charge is so ridiculous that it becomes humorous and bespeaks the writer of the charge, as being a pinheaded simpleton of the simplest variety.

The writer in this paragraph also charges us with being unfamiliar with the subject and winds up by telling our readers that anything this paper might say would be of no consequence. If of no importance why did he trouble himself to take up the scudgel?  
He is either a natural born fool or a devotee of some of these diversified farming experts, either of which amounts to about the same thing.

## KUKUIOLONO PARK IS DEDICATED TO PUBLIC

Flag Pole Exercises Mark the Dedication Of Beautiful Park To The Public By Walter D. McBryde.

## RACE-TRACK IS INCLUDED

A Gift Which Will be long Appreciated by All True Lovers of the Various Kinds of Sport.

The Kukuilono Park, which was recently dedicated to the public by Walter McBryde, with flag raising ceremonies is a gift which carries more significance than can be realized by a passing thought. It means much as an everlasting stimulus to athletic sports of every description and is further indication of the thoughtfulness of the donor laboring class, has become a second nature.

The park is situated makai the government road, perhaps a mile, but a splendid approach has been provided over which an auto glides up the glade, with perfect ease. A graded race track 30 ft. wide encircles the park, while the inside is arranged for baseball, football and any other desirable sports. The location of the park may probably lead to a centralization of all sporting events from Makaweli to Koloa, as it is situated at Homestead, a sort of half-way place between the above places.

## Throne Yields To Assembly Demands

From Peking comes a dispatch to the effect that the throne has yielded to the demands of the assembly, and that Prince Shing has succeeded Yang Shoo Yi in the Cabinet.

Some have raised quantities of potatoes for instance, but by the time transportation and commissions were paid not enough remained to pay growing expenses.

Experiments have been made in Kapaa and are being made in Kalaheo. Diversified advocates will point to the latter and exclaim "see what can be done!" But to all such shallow brained numbskulls, we would kindly suggest a perusal of the books belonging to stores where these "Homesteaders" do their trading and without the aid of which that speck of "diversified" agriculture would go out of existence. Some of these men are probably so deeply in debt that they will never be able to get even again which fact is certainly not a very great inducement to wade in and get your feet wet.

4th. That this is the only paper that has ever dared attack the progressiveness etc., is another one of the writers most idiotic charges. We can't imagine where he could get such an idea, since the paper has become known throughout the Territory as one of the most progressive of all the island weeklies. This charge is so ridiculous that it becomes humorous and bespeaks the writer of the charge, as being a pinheaded simpleton of the simplest variety.

The writer in this paragraph also charges us with being unfamiliar with the subject and winds up by telling our readers that anything this paper might say would be of no consequence. If of no importance why did he trouble himself to take up the scudgel?

He is either a natural born fool or a devotee of some of these diversified farming experts, either of which amounts to about the same thing.
